(ATCC). As evidence of this deposit, Applicants submit herewith a statement of Biological Deposit under 37 C.F.R. §1.802. As amended, the sequence of SEQ ID NO:3 now reflects the sequence of the clone deposited as PTA-287 with the ATCC. As the newly submitted sequence was part of the application at the time of filing, the changes in the sequence do not substantially effect the invention. No new matter has been added by way of these amendments. The Examiner is respectfully requested to enter the substitute listing into the above-referenced application.

It is not believed that extensions of time or fees for net addition of claims are required, beyond those that may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned under 37 CFR § 1.136(a), and any fee required therefore (including fees for net addition of claims) is hereby authorized to be charged to Deposit Account No. 16-0605.

Respectfully submitted,

Kelly J. Williamson
